COMMENTS FROM THE TOWN MANAGER'S OFFICE

A meeting was held on Oct. 28th at the West Bethel Grange Hall which was attended by the residents of West Bethel to have explained to them the costs of installing a water system, the estimated revenue required to operate the system and what the costs would be to those that desire to connect. A poll was taken of those present with the results that there will be 25 connections as soon as the system is installed. On the strength of the indications of a great majority, the Selectmen have deemed it feasible to carry out the vote of the Oct. 19th special town meeting.

Materials have been ordered, such as pipe, gate valves and boxes, 2000 gallon storage tank and pump. Installation will commence as soon as the materials arrive.

Financing arrangements have been made through the Casco Bank. The loan is for \$10,000, to be repaid at the rate of \$500 per year with interest.

It is planned to use four men from the Highway Department to do the work. The other two will mount snow removal equipment in preparation for the coming winter.

Sincerely,
Harold L. Bean

HIGH INTEREST RATE ON SAVINGS BONDS

Never before have United States Savings Bonds been so attractive to investors and small savers alike, George H. Viles of South Paris, County Chairman, Savings Bonds Committee, said in commenting on the one-half per cent increase in interest rates on old and new Series E and H Savings Bonds.

"Forty million people automatically benefit from the recent legislation passed by Congress," Mr. Viles said, "because that many hold outstanding bonds in the amount of \$42.6 billion. For the first time, the hike in rates applies to old series E and H Savings Bonds, as well as those being bought currently. So, it will be to the advantage of most bond owners to hold onto their old bonds, thus automatically receiving the benefit of the increase."

The new law does two things: (1) it provides that all Savings Bonds bought on and after June 1 draw 3 1/2 per cent interest when held to maturity, and (2) it increases by at least one-half of one per cent the interest on all outstanding E and H bonds, regardless of their age, for the period from June 1, 1959, to their maturity. In addition, the Treasury has promised a 10-year extension privilege for E bonds, old and new.

"I cannot emphasize too strongly the fact that every person who owns an E or H bond benefits from the new rate, without having to do anything about it," Mr. Viles continued. "I would therefore encourage the public to do two things: keep holding their old bonds, and keep on buying the new ones. This is the finest Savings Bonds package ever offered."

TRIBUTE TO MARIE SWAN DAVIS

Fair memories of life come to us this day, of life and not of death.

Living hopes surround all who pay tribute to her this day. Her life was full, and she lived each day to its fullest measure, accepting what it brought to her with fortitude and faith.

Her inquiring mind, and quiet humor captured both family and friends.

Patience, a deep appreciation of mankind, and a sincere concern for others filled her spirit and made her a friend to all.

Her companionship with others was always in ties of friendship, love, and truth.

She possessed a keen perception of values.

She was strong in her faith, and faithful to her Church. She will live as a comfort to us, which shall remain with us throughout the years.

"What did we ask with all our love for her but just a breath of fuller life And God hath given her the gift of life itself full everlasting life. What did we pray for rest even for one night that she might rise with sleep's most golden dew, refreshed to fill the morning in her soul. And God hath given her His eternal rest life within the soul."

The 10 Commandments
of Safety

- 1 Treat every gun with the respect due a loaded gun. This is the first rule of safety.
- 2 Guns carried into camp or home, or when otherwise not in use, must always be unloaded, and taken down or have actions open; guns always should be carried in cases to the shooting area.
- 3 Always be sure barrel and action are clear of obstructions, and that you have only ammunition of the proper size for the gun you are carrying. Remove oil and grease from chamber before firing.
- 4 Always carry your gun so that you can control the direction of the muzzle, even if you stumble; keep the safety on until you are ready to shoot.
- 5 Be sure of your target before you pull the trigger; know the identifying features of the game you intend to hunt.
- 6 Never point a gun at anything you do not want to shoot; avoid all horseplay while handling a gun.
- 7 Unattended guns should be unloaded; guns and ammunition should be stored separately beyond reach of children and careless adults.
- 8 Never climb a tree or fence or jump a ditch with a loaded gun; never pull a gun toward you by the muzzle.
- 9 Never shoot a bullet at a flat, hard surface or the surface of water; when at target practice, be sure your backstop is adequate.
- 10 Avoid alcoholic drinks before or during shooting.

(Although this is addressed to Chevrolet owners, we'd be glad to have you read it, no matter what make you now own or plan to buy. It might well be as interesting and significant to you as to the Chevrolet owner.)

TO THE MORE THAN 16 MILLION PEOPLE
WHO OWN CHEVROLETS

The first and the latest—the 1912 and the 1960 Chevrolet. The progress represented here is the result of continuing efforts to make your new Chevrolet always more beautiful, more useful and more valuable in every respect.

You belong to the largest family of owners in the automotive world. We hope you're proud of that. It must give you great satisfaction to know that your judgment in choosing Chevrolet has been confirmed by so many other people.

We know that we can hold your preference and your loyalty only by meeting our responsibilities to you fully and completely from the day you buy your Chevrolet to the day you trade it in. And so we'd like to talk with you about our responsibilities as we see them, and what we are doing to meet them.

Our first responsibility, we think, is clear: To design and build products that satisfy your needs and your wants to the highest possible degree. To that end, we have done these things for 1960:

nomical, roomier, more quiet and comfortable, easier to handle and maneuver. Introduced the compact and revolutionary Corvair. Produced a new line of Chevrolet trucks with unprecedented advances in efficiency, cargo handling, driver comfort and ability to get a job done.

But it isn't enough to design and build the kinds of products you want. They must be built right. Solidly. Carefully.

Let us assure you of this: Chevrolet's fine reputation as a solid, well-built, dependable product is being safeguarded by more checks and inspections and tests, than ever before.

Along with your Chevrolet dealer, we want you to have available the finest and most complete service facilities. That is why we conduct training schools for Chevrolet dealer mechanics. Study and recommend im-

proved service equipment and techniques, easier to handle and maneuver. Introduced the compact and revolutionary Corvair. Produced a new line of Chevrolet trucks with unprecedented advances in efficiency, cargo handling, driver comfort and ability to get a job done.

Finally, neither Chevrolet nor your Chevrolet dealer has any intention of forgetting you after you buy. To help keep you happy with your Chevrolet, we have established a department new to us, and as far as we know, new to the automobile industry. This is the Chevrolet Department of Owner Relations, whose only job is the coordination of Chevrolet and Chevrolet dealer activities so that you enjoy utmost satisfaction during your entire period of ownership. Through this department, and through all the other extraordinary steps we are taking, Chevrolet and your Chevrolet dealer hope to keep you a happy member of the Chevrolet owner family.
